Nelle tavole i particolari vengono riquadrati nei seguenti casi:

- 1) Quando compongono un gruppo
- 2) Quando compongono un sottogruppo
- 3) Quando sono impiegati solo per i dispositivi elencati nel riquadro.

Un particolare o un gruppo viene richiamato con una lettera nei seguenti casi:

Per la loro consultazione, rimandiamo alle relative tabelle delle varianti pubblicate nella stessa tavola oppure nelle ultime pagine del catalogo.

Gli organi di cucitura, le guide e gli accessori sono preceduti da tavole riepilogative con l'indicazione dei particolari in dotazione e di quelli a richiesta.

Per ordini di aghi, precisare il simbolo riportato in catalogo; in caso di dubbio allegare un ago campione o una bustina vuota.

GUIDELINES FOR THE USE OF THE SPARE PARTS CATALOGUE

All the parts that are components of devices and the variants are represented in more tables as shown in the index, in relation to the head they are mounted on. Each table indicates the components relevant only to the listed devices.

Some symbols are represented within a square in the following cases:

- 1) When they are part of an assembly
- 2) When they are part of a sub-assembly
- 3) When they are used only for the devices listed in a square.

A letter refers to a part or to an assembly in the following cases:

- 1) When they are not common to all heads the devices are mounted on
- 2) When they are not common to all devices shown in the catalogue
- 3) When there are alternatives to the same part or assembly.

In this case, refer to the relative charts of variables published in the same table or in the last pages of the catalogue.

The sewing parts, guides, folders and accessories are preceded by summary tables indicating standard parts and parts supplied on request.

When ordering needles, please specify catalogue symbol; if you have doubts, send a sample needle or an empty needle bag with your order.
